

# Object by Ween

Verses

↓

You're just an object to me  
You're just a piece of meat

I'd like to get to know you better  
and I am a butcher

spread you a-cross my body . You're just an object to me  
I love you better, love you for- ever, you're just an object to me

Why sit in the shade drink what we made from a lover's

cup. Dreams don't always come when you fall asleep, you're just an object to me.

I'm gonna do something  
You're just an object to

wrong.  
me.

No body's gonna like it.  
I feel a little better,

I've got my pride and my time isn't free. you're just an object to me  
they found your sweater. You're just an object to me
